Opened: Wednesday, 16 September 2026, 12:00 AM
Due: Thursday, 15 October 2026, 11:59 PM

This is a continuation of Assignment 1A. For this assignment, you are required to build the frontend for the databases designed previously.

Caveat: Teams have been shuffled (Team Allocations), and projects have been randomly allocated (GitHub Repos Allocated).

The project details are provided in the Assignment 1B PDF.

You are required to submit the assignment on both GitHub and Moodle, following the format specified in the assignment. Please adhere to the submission scheme to ensure that your work is evaluated correctly and you receive the appropriate marks.

A doubts portal will be opened on Moodle shortly. All doubts regarding the assignment should be posted through the doubts portal.

Deadline: 15 October
